The Social Health

Committee would like to introduce  
you to the Social Support Circle  
Process. This process is designed  
to build a better and  
deeper understanding about the

challenges that a child might be facing either at home  
or at school. It is a warm, supportive, and attachment  
strengthening process that the Social Health  
Committee facilitates based on referrals that are made  
by either parents or teachers. If you'd like to know  
more about this process, please feel comfortable  
coming to any of us on the committee to discuss it  
further. We are here to support the social well being of  
the whole community.
